In the Matter of the Application for a Pipeline
Routing Permit and Partial Exemption from
Pipeline Route Selection Procedures for the
Nashwauk-Blackberry Natural Gas Pipeline
Project

ISSUE DATE: August 23, 2007

DOCKET NO. PL, E-280/GP-06-1481

ORDER INITIATING FULL REVIEW,
AUTHORIZING ADVISORY COMMITTEE,
REFERRING TO OFFICE OF
ADMINISTRATIVE HEARINGS AND
ORDER AND NOTICE OF HEARING

PROCEDURAL HISTORY

On March 6, 2007, the Nashwauk Public Utilities Commission (NPUC) proposed to build a 23-mile, 24-inch diameter pipeline in Itasca County to carry natural gas from Blackberry Township to the City of Nashwauk for the purpose of serving a planned steel plant. NPUC filed an application for a pipeline route permit pursuant to Minn. Stat. § 216G.02 and requested partial exemption from the pipeline route permit procedures as provided by Minn. Rules Chapter 4415.

On April 3, 2007, the Commission accepted NPUC's application as fulfilling the requirements for an application seeking partial exemption from the pipeline route selection procedures.

On April 18 and May 19, 2007, the Commission convened public informational meetings.

By June 8, 2007, the Commission had received comments from roughly 85 residents and entities. Roughly 80 of them asked the Commission to, among other things, 1) deny NPUC's request to be exempt from parts of the pipeline route selection process and 2) establish a citizen advisory committee to identify and analyze alternative routes. The Commission also received comments from Great Northern Iron Ore Properties, the Minnesota Department of Transportation and the U.S. Army Corps of Engineers, identifying how the proposal might affect their interests. Finally, both BP Canada Energy Marketing Corp. and the Western Mesabi Mine Planning Board wrote generally in support of NPUC's proposal.

On July 12, 2007, NPUC asked this Commission to convert its initial application from a request for a permit pursuant to a partial exemption to a request for permit pursuant to a full proceeding under Minnesota Rules, Part 4415.0045, and filed additional information in support of its application.

The Commission met on August 9, 2007, to consider this matter. The Commission heard additional arguments from NPUC, the Department and resident Darrell White.

FINDINGS AND CONCLUSIONS

I. Legal Background

Except as otherwise provided by law, no one may build a pipeline without a pipeline routing permit issued by the Public Utilities Commission.

Minnesota Rules Chap. 4415 establishes the procedures and requirements for obtaining a pipeline route permit. Among other things, this chapter directs applicants to analyze multiple possible routes, provides for a citizen advisory committee to assist in evaluating alternatives, and requires the Office of Administrative Hearings to conduct evidentiary hearings on the matter. But where a proposed pipeline is not expected to have a significant impact on humans or the environment, the rules also provide for granting a partial exemption from these procedures.

When the Commission receives an application for a partial exemption, it convenes public meetings and receives comments on whether to grant the application. In deciding whether to grant the partial exemption, the Commission considers the information in the application, the record of the public meetings, and the filed comments. If the Commission denies the request, the applicant may ask the Commission to continue processing the application under full pipeline route selection procedures.

Prior to recently enacted energy legislation, the Commission had the responsibility and authority to issue certificates of need and the Environmental Quality Board (the Board) had the responsibility and authority to issue site or route permits. In 2005, the Minnesota Legislature transferred the Board’s siting and routing authority to the Commission and encouraged a certain level of combining of the two processes. II. Review Process and Application Requirements

NPUC initially sought to be exempted from the need to comply with the full review procedures, and filed an application designed to meet those more streamlined procedures. After participating in public meetings and reviewing public comments opposing this process, however, NPUC decided not to await Commission action on its exemption request and instead asked the Commission to process the application under full pipeline route selection procedures. In support of this request, NPUC filed information to supplement its initial application.

Having reviewed NPUC's original and supplemental filings and public comments, the Department recommends that the Commission grant NPUC's request to process the application under the full review process and to find that NPUC has met the filing requirements for that purpose. No party opposed this recommendation.

On the basis of its own review of the record and commentors' recommendations, the Commission finds the Department's recommendation reasonable. The Commission will grant NPUC's request to subject its application to the full review process and accept NPUC's application as complete. Consideration of NPUC's route permit application will now proceed in accordance with the requirements of Minn. Stat. § 216G.02 and Minn. Rules, Chapters 1405 and 4415.

III. Citizen Advisory Committee

Commission rules provide for the Commission to appoint a citizen advisory committee to assist in evaluating routes for the pipeline and for the Commission to define the committee's charge. While there is no upper limit on the committee's size, the rules provide for appointing one representative from each county, municipal corporation, town board and regional development commission operating in each county in which a route is proposed to be located.

A number of public commentors asked the Commission to organize a citizen advisory committee to analyze alternative routes for the proposed pipeline. NPUC supports this idea.

After considering the proposed pipeline's size, complexity, potential for controversy and the types of resources along the proposed route, the Department asked for authorization to establish a citizen advisory committee. Specifically, the Department proposes the following:

First, committee members would be solicited from the following governmental units:

- Arrowhead Regional Development Commission
- Itasca County
- City of Taconite
- City of Nashwauk
- City of Coleraine
- City of Bovey
- City of Calumet

¹⁰ Minn. Rules, Part 4415.0055.

¹¹ Minn. Rules, Part 4415.0060.

- Blackberry Township
- Trout Lake Township
- Greenway Township
- Nashwauk Township
- Arbo Township
- Iron Range Township
- Greenway Township
- Goodland Township
- Lone Pine Township
- Wawina Township
- Sago Township
- St. Louis County

The Department would compile a list of names for possible appointment to the committee.

Second, committee members would be charged with assisting the Commission in determining (1) what routes should be evaluated and (2) what impacts and issues should be considered in the comparative environmental analysis of all pipeline routes accepted for consideration by the Commission. Members would be expected to participate with Department in up to three working meetings and develop a summary report containing their recommendation.

Finally, the committee would expire upon the Commission's selection of routes to consider at the public hearing.

Based on the Department's analysis and the filed comments, the Commission finds that a citizen advisory committee is warranted. The Commission will authorize the Department to organize a citizens advisory committee in the manner described above.

IV. Referral to Office of Administrative Hearings

The Commission finds that it cannot satisfactorily resolve all questions regarding the reasonableness of the proposed route on the basis of the Applicant's filing. The Commission will therefore refer the matter to the Office of Administrative Hearings for contested case proceedings.

The Administrative Law Judge assigned to this matter will conduct hearings as described in this Notice and submit a Report to the Commission. Following receipt of the Administrative Law Judge's report, the Commission will proceed to make its final decision in accordance with Minn. Stat. Chapters 14, 116C and 216G.
